Managing a virtual team is different from managing a team that is physically present, and requires a different set of skills for success.

This 1-hour online workshop provides strategies to purposefully build your team with the right mix of skills, personalities and structure for success.

This is an instructor-led class that you can attend from home or your office.

The virtual classroom uses an advanced version of Zoom called ‘Zoom for Webinars’ that includes enhanced collaboration features such as One-click content sharing, real-time co-annotation (people can work together in activity files), and digital whiteboarding, and we use tools such as live polls, private group chats and participants can ‘raise their hand’ so you virtually have the same collaborative classroom based learning experience.

These courses are facilitated in English and are open to people from different industries across Australia, New Zealand, Singapore, Malaysia and Hong Kong - this is a short but powerful learning experience that gives you global collaboration opportunities.

**Please note, these classes run to a very tight schedule, please follow the invitation and join the class 10-minutes prior to commencement so you are ready to participate and don't miss a minute!**
