**COURSE LENGTH: 0.5 DAYS**

Hearing and listening are two different terms and active listening is the key to effective communication. If you want to enhance your active listening skills, enrolling in an Active Listening training course is an ideal way to improve your ability to communicate professionally. Listening actively involves paying full attention to the one talking, listening between the lines, observing nonverbal communication cues and asking the right questions.

In this Active Listening training course you will learn how to listen, understand and then respond. Using these techniques you will become a more effective communicator in all situations, whether during a one-on-one conversation or in business meetings.

Pdtraining's Active Listening training course is available now in Hongkong wide.
