1.0 DAY COURSE

"Anger is an acid that can do more harm to the vessel in which it is stored than to anything on which it is poured." - Mark Twain, American author
Everyone experiences anger from time to time. It is a healthy emotion, normally experienced by anyone. However, it can quickly become unhealthy and detrimental if not understood and controlled. Uncontrolled anger harms your reputation, destroys your relationships with colleagues or clients, limits your opportunities and even damages your health.

This Anger Management training course is one of the best ways to help you become aware of the causes of your anger, what triggers that unhealthy anger and the behavior patterns which lead to anger. By attending this course you will be provided effective techniques for controlling and overcoming your anger, how to avoid situations that create frustration and demystify this intense emotion.

What You'll Gain:

Anger can be an incredibly damaging force, costing people their jobs, personal relationships, and even their lives when it gets out of hand. However, since everyone experiences anger, it is important to have constructive approaches to manage it effectively.
