Microsoft Excel
2013
Essentials

COURSE LENGTH: 1.0 DAYS

Microsoft Excel 2013 is a software designed to help companies keep track of accounts, numbers, essential data and more through the use of spread sheets. Hence, this tool helps individuals and businesses to manage their immense assets and data in easy to access documents.

This Microsoft Excel 2013 Essentials training course is the third in a three-part series and teaches participants how to understand and use the software more efficiently. You'll learn skills like how to create a new workbook, save a workbook, enter and delete data, insert rows and columns and many more.

This training course is now available in Hong Kong.

This Microsoft Excel 2013 Essentials training course can be delivered at your premises by one of our expert local or international trainers or live online using our [HIVE](#) technology.
