 - Modify and format tables
 - Create, display and use custom WBS codes
 - Use team planner
 - Create a budget
 - Use AutoFilters
 - Track and update tasks
 - Understand project costs
 - Work with Project Server and Deliverable Fields
 - View, organize and print reports
 - Change print settings
 - Review and update assignments
 - Compare project versions
 - Perform resource sharing functions
 - Update the Resource Pool
 - Stop resource sharing temporarily and permanently
 - Consolidate projects
-

MODULES

Lesson 1: Managing the project and understanding project views

- Exercises: Preparing a project for analysis and tracking and performing Resource Leveling
- Customizing the Gantt Chart bars
- Displaying the Critical Path

Lesson 2: Examining and Updating the Project

- Amending tasks using various views
- Using Resource Leveling
- Understanding baseline and interim plans
- View project baseline information
- Compare baseline and scheduled information

- Using the Formatting Tab of the ribbon
- Using Network Diagrams
- Displaying Tables
- Inserting and hiding columns
- Creating a New Table
- Applying Filters
- Using AutoFilters
- Understanding and viewing WBS Codes

- Tracking and Updating Tasks Effectively
- Exercise: Updating the Holiday project
- Viewing Progress Lines
- Exercise: Show the Project Progress Line
- Understanding project costs
- Exercise: Adding costs
- Creating a budget
- Viewing total resource costs
- Viewing total task costs
- Reducing project costs
- Understanding Project Deliverables

Lesson 3: Printing and Reporting

- Printing project views
- Viewing and changing the print settings
- Add a header, footer, or legend to a view
- Viewing the built in Reports
- Editing Reports
- Visual Reports
- What You Can Print
- Reports by Report Type

Lesson 4: Multiple Projects and Resource Sharing

- The Resource Pool
- Exercise: Create a resource pool from an existing project and share the resources
- Updating the Resource Pool
- Review and update assignments
- Update resource availability or cost information
- Stop sharing resources (temporarily)
- Stop sharing resources from a Resource Pool (permanently)
- Consolidating projects
- When to use a master project and subprojects
- Insert subprojects into a master project
- Compare Project Versions
