PRESENTATION SKILLS TRAINING COURSE OUTLINE

FOREWORD

Good information, great ideas or the best proposal only gets you half way to a great presentation in Hong Kong. To be a successful, professional presenter, you need to be able to capture your audience and take them on your journey using effective presentations.

Positioning yourself and your ideas in a consistently positive and professional manner enables you to make a professional impression; the first time and every time. Raw information is logical but being logical does not capture anyone's attention for too long. Persuasive presentations start with raw information, then opinions are added and further coloured with imagery, then given personality by the presenter. The more of the mind you tickle, the more retention and motivation you reap.

This **Presentation Skills** Training Program will teach you how to prepare quickly, utilise the best method for delivering your message, and maintain audience interest at all times.
