- Details and theory, provided clearly with supporting imagery

SCRUM MASTER CERTIFIED TRAINING COURSE OUTLINE

FOREWORD

Scrum Master Certified Training (SMC™) professionals in Hong Kong have a practical, working knowledge of Scrum that equips them to implement and work in a Scrum environment. The purpose of the exam is to confirm the applicants have achieved sufficient understanding of how to apply Scrum in the projects and to tailor Scrum in a particular scenario.

SMC™ professionals are facilitators who ensure that the Hong Kong Agile Scrum Team is provided with an environment conducive to completing the project successfully. The Scrum Master guides, facilitates and teaches Scrum practices to everyone involved in the project, clears impediments for the team, and ensures that Scrum processes are being followed.

OUTCOMES

In this course you will:

▶ Readily recognise, define, and work with the concepts, advantages, and challenges of the Agile Scrum Framework.
▶ Be prepared to play the role of Scrum Master in their organisations and help their organisations adopt the Scrum Framework. Furthermore, students will develop an understanding of the other roles in Agile Scrum.
▶ Participate in role-plays, during which they carry out a Scrum project.
▶ Gain knowledge pertaining to and the ability to anticipate issues related to the practical implementation of Scrum.
▶ Be armed with the proper tools to address, resolve, and take the lead on Scrum issues in their organisations.
