COURSE LENGTH: 1.0 DAYS

Supply Chain Management involves the flow of materials, information, and finances as they move from supplier, to manufacturer, to wholesaler, to retailer, and finally to the consumer. To better compete in a global economy, organizations are finding that a managed supply chain is the key to success.

The *Supply Chain Management* Training course by PD Training aims to provide managers with operational and managerial techniques to improve customer satisfaction, improve performance, lower costs, and enhance product development.

This hands on practical training course is available now throughout Hong Kong, including Central.

SUPPLY CHAIN MANAGEMENT COURSE OUTLINE

FOREWORD

Rapid global expansion, rising fuel costs, environmental concerns and interconnected businesses can all have a tremendous impact on corporate strategies and costs. Organizations can no longer ignore what happens outside their own four walls, making supply chain management a critical and in demand field. This course from PD Training helps meet this demand. You'll gain a better understanding of the finances, logistics and delivery of products and services and how it leads to increased efficiencies and competitiveness, while maximizing customer value and satisfaction.
