REQUEST QUOTE

1.0 DAY COURSE

Microsoft Excel is a powerful tool essential for managing and presenting data in today's working environment. In this Microsoft Office training course, you gain the knowledge and skills to create and edit worksheets, use formulas and functions, sort and filter detail data visually and present summary information in a consumable and professional format.

We use secure Video Conferencing with interactive features such as live polling, screen sharing, whiteboards, live chat and breakout sessions. Please discuss your preferred platform, most commonly we use Microsoft Teams, Skype for Business, Webex or Zoom upon request.

These courses are facilitated in English, and are open to people from different industries across the USA, Australia, New Zealand, Singapore, Malaysia and Hong Kong - this is a short but powerful learning experience that gives you global collaboration opportunities. Our trainers and processes have been refined to give you a personalised learning experience.

****Please note, these classes run to a very tight schedule, please follow the invitation and join the class 10-minutes prior to commencement so you are ready to participate and don't miss a minute!**

Please click the In-House Training tab to receive a free quote for courses delivered at your preferred location.

What You'll Gain:

This course is designed to give users a good introduction to the basic concepts of Excel. It explores the structure of the Excel workbook and demonstrates basic techniques required for working with spreadsheets.
