1.0 DAY COURSE

Email has become one of the most widely used methods of communication, whether for personal or business communications. In most organisations, large or small, email is the preferred form of communicating information amongst employees. As email grows in popularity and use, most organisations have found the need to implement a corporate mail management system such as Microsoft® Office Outlook® to handle the messages and meeting invitations sent among employees.

The PD Training Microsoft Outlook 2016 Introduction training course is designed to provide you with the basic skills you need to start using Outlook 2016 to manage your email communications, contact information, calendar events, tasks, and notes. You can also use this course to prepare for the Microsoft Office Specialist (MOS) Certification exams for Microsoft Outlook 2016.

We use secure Video Conferencing with interactive features such as live polling, screen sharing, whiteboards, live chat and breakout sessions. Please discuss your preferred platform, most commonly we use Microsoft Teams, Skype for Business, Webex or Zoom upon request.

These courses are facilitated in English, and are open to people from different industries across the USA, Australia, New Zealand, Singapore, Malaysia and Hong Kong - this is a short but powerful learning experience that gives you global collaboration opportunities. Our trainers and processes have been refined to give you a personalised learning experience.

****Please note, these classes run to a very tight schedule, please follow the invitation and join the class 10-minutes prior to commencement so you are ready to participate and don't miss a minute!**
